

Integrated Pest Management in Schools

Dear Parent/Guardian:

This facility, Today's Kids Childcare & Learning Center, has implemented an Integrated Pest Management Program (IPM) in order to control pest in a way that minimizes economic, health, and environmental risks by implementing an inspection and monitoring program. The findings will then be evaluated to determine what action to take next, including the judicious use of pesticides. If a pesticide application is determined to be needed, those individuals making the application would be required to be properly certified and licenses in keeping with applicable legal requirements for the IPM program. Please indicate below if you want to be notified twenty-four (24) hours in advance of a planned pesticide application. Certain pesticide applications, such as the application of a paste or gel bait pesticide application, you will be notified as soon as possible after the application with an explanation as to why the application was made. This information is available to all parents and employees requesting it. For any questions regarding the Integrated Pest Management program, contact Jennifer Beavers or Tisha Coleman at 502-543-2503.

_____ NO, I do NOT wish to be notified twenty-four (24) hours in advance of a planned pesticide application or as soon as possible after an emergency application.

_____ YES, I DO want to be notified twenty-four (24) hours in advance of a planned pesticide application or as soon as possible after an emergency application.

Animals in Childcare Facility

I, _____, parent of

_____ give my permission for my child to be exposed to animals under the supervision of an adult. I understand the animal(s) allowed in the facility will be vaccinated against rabies. I understand that I will be notified if my child is bitten and scratched by an animal in the childcare facility. I understand an animal brought into the childcare facility considered to be undomesticated, wild, or exotic will not be allowed unless the animal is part of a planned activity lead by an animal specialist affiliated with a zoo or nature conservatory.
